LIB/HRT/HST 319 Peer Review of Recorded Presentations:

Students must assess the presentations and reflect on what they learned. Students will be required to integrate this analysis into their final reflections. Professor McKee will provide students a photocopy of the reflection on the last day of class (Week 15, Lecture 30) in order to facilitate students' incorporation of the text into their final course assignment. The final reflection assignment will be discussed in class during Week 14, Lecture 28. This assignment is 10% of students' final grades.

Below you will be asked to assess each group presentation and provide critical, constructive feedback. Please keep the following guidelines in mind:

- Exceptional:** Focused and coherently integrates examples with explanations or analysis; Demonstrates awareness of its own limitations or implications; Considers multiple perspectives when appropriate; Reflects in-depth engagement with the topic.
- Satisfactory:** Reasonably focused; Explanations or analysis are mostly based on examples or other evidence; Fewer connections are made between ideas, and though new insights are offered, they are not fully developed; Reflects moderate engagement with the topic.
- Underdeveloped:** Mostly description or summary, without consideration of alternative perspectives, and few connections are made between ideas; Reflects passing engagement with the topic.
- Limited:** Unfocused, or simply rehashes existing sources; Displays no evidence of student engagement with the topic.
